ALL are welcome

IS IT
NECESSARY ?

SADLY

YES !

IS IT NECESSARY ?

When first introduced Safeguarding and DBS were considered by *most of us* as '**OVERKILL**'

Over the years we have, very sadly, realised just how wrong we were- well known personalities and many ordinary folk have been **found** out and some awful atrocities have occurred.

The very fact of these safeguarding measures will not stop everything but if one perpetrator is foiled that is a result for that vulnerable person!

For a long time we have needed to sign to agree that we will share our name, telephone and email addresses to other church members and regular attendees (**NOBODY ELSE**)

It is time to update that list – a steward will ask that you sign to agree but **ONLY IF YOU WISH**

If two people are in a household then two signatures are needed.

NEVER share the information – if asked by anyone else -- please take their number and pass it on to the person they wish to speak to – the onus is **not on you**.
